SAYLI ZINGE

SENIOR SOFTWARE TESTER

PERSONAL PROFILE

- Experienced Software Tester with over 7+ years of expertise in manual and automated testing, Bug tracking and ensuring software meets functional and technical requirements.
- Proficient in test case design, API Testing, defect tracking, test automation, performance testing, and CI/CD integration.
- Skilled in using testing tools like SoapUI, Postman, JUnit, JIRA, and LoadRunner. Passionate about ensuring high-quality software and collaborating with cross-functional teams to deliver defect-free products.

WORK EXPERIENCE (7.5 YEARS)

○ Deputy Manager – Senior Software Tester

Reliance Jio | Nov 2021 – Present

- Lead end-to-end test planning, test strategy, and execution for enterprise, retail-level applications.
- Performed API testing (REST & SOAP) using Postman and SoapUI, validating response codes, data integrity, and security.
- Developed and executed automation test scripts, reducing manual effort and test cycle time.
- Integrated automated tests with CI/CD pipelines (Jenkins, Azure).
- Designed and maintained functional, regression, and integration test cases.
- Conducted performance and load testing using JMeter and LoadRunner.
- Managed defects using Azure DevOps, ensuring detailed documentation and timely resolution more than 1000+ bugs resolved.

○ Assistant Manager – Software Tester

Reliance Jio | Oct 2019 – Oct 2021

- Executed manual and regression testing for multiple releases
- Participated in UAT, system, and integration testing
- Identified, logged, and tracked defects in JIRA/Azure DevOps
- Collaborated closely with developers and business teams to clarify requirements

○ Software Associate

Reliance Jio | Sept 2018 – Sept 2019

- Created and executed test cases based on functional specifications
- Performed UI and backend validation
- Supported test data creation and release validations

PROJECTS

- Implemented FLOWORX workflow orchestration platform to migrate existing legacy BE (Backend Engine) applications to a modern, scalable, API-driven workflow system.
- Balance Consumption Management System, Verified real-time balance checks, consumption limits, and fallback handling.
- Campaign Management & Execution Platform, Automated critical campaign regression scenarios and integrated them as quality gates in CI/CD pipelines, reducing production issues.
